✠ God's Indicator Panel

On February 3rd, 1959, at 35,000ft. above the Atlantic, Captain Lynch took a last look at the flight panel of the Boeing 707. The co-pilot was studying a map. Captain Lynch decided to stretch his legs, thinking that the worst was over. Shortly after leaving Paris they had run into a very strong headwind. But by now they had climbed above the storm. The captain made his way down the aisle between the rows of seats. All the passengers still had the seatbelts fastened. At the back a baby was crying in its mother's arms and the captain reassured her saying, "It will be better now. Your baby will be able to sleep." Just then Captain felt the right wing tip and he was thrown against the seats on the right hand side. At the same moment all the lights in the plane went out. Next he found himself lying on the floor. At least he thought it was the floor. But then he realised it was the ceiling he was on. The Boeing was on its back. He also knew it was dropping like a stone head first. He began to make his way back to the cockpit. The co-pilot had been knocked unconscious. He came to again and he and the captain managed to bring the Boeing to the horizontal. The aircraft lost 29,000ft. but finally at 6,000ft. Captain Lynch regained control of the aircraft. A few more seconds and the plane would have crashed into the Atlantic. The whole incident lasted four minutes. What caused it? While the co-pilot was studying the map he did not notice the blue light on the indicator panel warning that the automatic pilot had become disengaged. God has given us an indicator panel to guide us through life and prevent us from getting turned upside down and crashing. That indicator panel is the Commandments. The Commandments are a gift from God to help us enjoy life by not getting lost along the way. There are many ways in which God has given us an indicator panel to guide us through life and help us not get turned upside down and crash. Above all God has revealed his indicator panel to us in Jesus. God has also given us the Bible, and the teaching of the Church. Thank God for all the helps he has given us for our journey through life. God's indicator panel is to help us find happiness in life. There are many temptations and attractions all telling us that they are offering us happiness but any happiness they offer is shallow and not lasting. Sinning never brings happiness, only unhappiness. Sin is sin and never brings happiness only unhappiness. Only by following God's indicator panel will we arrive at our destination safely and find true happiness. Let us resolve to leave sin behind and follow God's indicator panel. It is the only way to life and the only way to guide us safely above the storms of life. If we do get

turned upside down let us return to the Lord in the Sacrament of Reconciliation because he is all merciful and rejoices over sinners who repent. There is more rejoicing in heaven over one repentant sinner than over ninety-nine who have no need of repentance. (Luke 15:7)

FREE 2 PRAY

A proposed law will soon be put before the Scottish Parliament which seeks to criminalise praying in certain public spaces and which is punishable by up to 2 years in prison. It is vital that Catholics and all concerned for free speech and freedom of assembly, speak out. A Green Party MSP, supported by the Scottish Government, is proposing a Bill to ban peaceful prayers and offers of help near abortion clinics in Scotland. The Bill proposes a jail sentence of up to 2 years for anyone who even silently prays near an abortion clinic. Catholics in England have already been arrested under similar laws there. If the Government is allowed to decide when and where people can pray this is a serious threat to religious freedom. If the principle is established in this Bill, it could easily be applied to Corpus Christi processions or other forms of Catholic social justice work if politicians decide they don't agree with what is happening. It is vital that as many Catholics, and all concerned for freedom of speech and assembly, make a response to this dangerous Bill. REGISTER for this session to find out how to respond. JUST FOR A LAUGH... 🤡🤡🤡 In the hospital the relatives gathered in the waiting room, where their family member lay gravely ill. Finally, the doctor came in looking tired and sombre. "I'm afraid I'm the bearer of bad news," he said as he surveyed the worried faces. "The only hope left for your loved one at this time is a brain transplant. It's an experimental procedure, very risky, but it is the only hope. Insurance will cover the procedure, but you will have to pay for the brain yourselves." The family members sat silently as they absorbed the news. After a great length of time, someone asked, "Well, how much does a brain cost?" The doctor quickly responded, "£5,000 for a male brain, and £200 for a female brain..." The moment turned awkward. Men in the room tried not to smile, avoiding eye contact with the women, but some actually smirked. A man unable to control his curiosity, blurted out the question everyone wanted to ask: "Why is the male brain so much more?" The doctor smiled at the childish innocence and explained to the entire group, "It's just standard pricing procedure. We have to mark down the price of the female brains, because they've actually been used."
